Struts 2 ★★★★⯪
Angular ★★★★⯪
React ★★★★★
Bootstrap ★★★★★

Hobbies

Spotting cars
Driving my car
Making small software projects
Learning frameworks

Roï Eielts
Software Developer

A cup of coffee is a must have ☕

Projects

Exam project: Pasimo/QR-goats/slidehub
Description
- My exam project includes several sub-projects: Pasimo, QR-goats, and Slidehub.
- Pasimo is a team project where I work together with 8 other students. It is a check-in system that uses the school ID card.
- QR-goats is a part of Pasimo and replaces the functionality of the school ID card with a QR code.
- Slidehub is a platform for presenting useful information from teachers to students. Our task within Slidehub is to resolve issues related to incident reports.

Frameworks/Tools/Languages
- **Frameworks:** Struts 2, Hibernate, Bootstrap, JQuery
- **Tools:** Scrum, EclipseIDE, VScode, MySQL workbench.
- **Languages:** Java, SQL, Javascript, HTML/CSS

### React native phone app
Descriptions
- I learned to develop a React Native phone app myself to challenge my knowledge and gain new skills. For this application I created a simple storage app that can track quantities of products and scan barcodes via the camera.

Frameworks/Tools/Languages
- **Framework:** React Native, micronaut
- **Tools:** EclipseIDE, Visual studio code, MySQL.
- **Languages:** javascript, java (backend), CSS
